Adding an event

You can add events on the calendar yourself. To do this, go to the main view of the CSRH Trainee Hub, go to the calendar, and click on the month. This will take you to a new view.
Click on New Event (in the top right corner), this will bring you to a new view.

Here you can fill out the information about the event with Event title, Description, date, duration etc. and you can also include links to join online sessions in the description. To make sure that the link works insert some text (e.g., click here to join), highlight the text, click
on the link button. This will open a dialogue page. Here, enter the URL (link to join) and click on create link.
