| **Key Relationships** | The e-SRH Clinical Lead will work closely with the following people:  
  ► **Education & Training Team:**  
  - Director of Education  
  - Education Development Manager  
  - Education Development Officer  
  ► **Members of the e-SRH Working Group**  
  ► **General Training Committee and its working groups**  
  ► **Clinical Effectiveness Unit** |
| **About FSRH** | Our specialist committees of SRH professionals work together to produce high quality training programmes, specialist conferences and events, clinical guidance and other SRH learning resources, all of which are designed to support healthcare professionals with their continued learning and development in SRH.  
  **Want to know more about FSRH?** |
| **About the e-SRH** | The e-learning for Sexual and Reproductive Healthcare (e-SRH) is an online learning resource that supports healthcare professionals in acquiring the relevant knowledge needed for delivering sexual and reproductive healthcare.  
  e-SRH supports FSRH [Diploma and the Letter of Competence](https://fsrh.org/diploma-and-the-letter-of-competence) trainees to prepare for the e-Knowledge Assessment (eKA). The eSRH is also an excellent standalone learning resource for anyone working in contraception and other SRH areas.  
  The e-SRH was launched in January 2010 following work by the FSRH and the Department of Health’s e-Learning for Health (e-LfH) team to develop a new SRH training programme with online access to the theoretical components of the DFSRH curriculum and for the Letters of Competence IUT and SDI. This aims to enable clinicians to acquire the knowledge and skills they need to manage community sexual and reproductive health consultations including helping to prepare for the Online Theory Assessment (OTA), although it is no longer compulsory to pass the e-learning in order to qualify for the Diploma. |
The e-SRH requires regular review to keep up to date with new advances in the field, and to respond to feedback from health professionals who access the e-SRH and the views of those who use SRH services.

The e-SRH has undergone extensive review and now aligns with the curriculum of the new DFSRH. There are 2 further sessions, 14 and 15, which accommodate learning for the LoCs. Its functionality is far more user-friendly and sessions are consistent in their content. Each session follows the same structure with easy to access learning, formative assessment and case studies. DFSRH assessments relevant to each session, are listed within the sessions which better enable candidates to prepare.

The role of the e-SRH Clinical Lead is an excellent opportunity to:

► Learn more about FSRH
► Work closely with leading experts in SRH
► Be formally acknowledged for your contribution.
► Use these experiences to support your CPD
► Develop your medical education expertise

This is a voluntary position. There is no renumeration for this post. Expenses will be covered in line with current FSRH policy.

This role will be key to the ongoing maintenance and development of e-SRH.

This role involves:

► Working in partnership with the Education & Training Team (particularly the Education Development Manager and Education Development Officer involved), to ensure actions are completed within and outside the working group meetings.
► Chair the e-SRH working group. This group is accountable to the General Training Committee.
► Maintain contact with key stakeholders within the FSRH Clinical Effectiveness Committee and the Clinical Effectiveness Unit to ensure the e-SRH is aligned with the most recent standards and guidance.
► Attend and produce reports for General Training Committee meetings in person or virtually (4 annually) in line with the Committee’s terms of reference.
► Liaise with clinical leads for DFSRH and LoCs to ensure that e-SRH content supports the curriculum and assessment needs.
► Lead process of reviewing and updating content as required.

Role overview
| **Terms of role** | ▶ Review and where appropriate respond to feedback from e-SRH users: this is collated and forwarded by e-LFH on a three-monthly basis.  
▶ Contribute to any further reports as might occasionally be required by Council or as part of the Quality Assurance process.  
▶ Ensure that the e-SRH is accessible and supports different learning styles and that it reaches the expected equality and diversity standards as defined by the GMC and NMC. |
| **Eligibility criteria** | ▶ This role and working group are accountable to the General Training Committee. The General Training Committee will delegate work and instructions to this group.  
▶ Role length – Up to three years and will be ratified on an annual basis, with a maximum extension to a second term (unless unavoidable and then approval to extend must be given by the Education Strategy Board)  
▶ Registered with a licence to practice with General Medical Council or registered with the Nursing and Midwifery Council in good standing or a regulatory body recognised by the FSRH Council  
▶ Has current membership of the FSRH, holding either the DFSRH, MFSRH, FFSRH  
▶ Active in SRH practice, and/or be on the GMC specialist register in Public Health Medicine, Obstetrics & Gynaecology, Community Sexual & Reproductive Healthcare or Genito-urinary Medicine or on the GP register or SAS doctors working in SRH. |
| **Skills and experience required** | ▶ Essential:  
▶ Evidence of active involvement in education  
▶ Have practical and theoretical experience of assessment theory and practice including question writing.  
▶ Working knowledge of products that use e-SRH as a basis for learning.  
▶ Active role working in SRH with knowledge and experience of SRH service delivery.  
▶ Proactive in maintaining up to date knowledge of standards and guidance related to SRH. |
| **FSRH support/working together** | Ability to lead a team and work collaboratively with others.  
| | An organised and systematic approach to work.  
| | Good interpersonal skills and a facility with written English  
| | Experience of equal opportunity and diversity  

**Desirable:**

- Experience of leading working groups or chairing committees  
- Experience of working with e-learning  

| **Process/next steps** | The post holder will lead the e-SRH working group and work in partnership with FSRH staff in the Education and Training team.  
| | The working group is supported by the FSRH Education Development Officer and is managed by the FSRH Education Development Manager. These FSRH staff members support the ongoing workload of the group and will liaise with them regarding their responsibilities.  
| | Travel and subsistence expenses incurred on official duties are reimbursed according to the FSRH policy in effect at the time.  
| | Apply online for this position via the online webform.  
| | Successful candidates will then be contacted to arrange a brief interview either by phone, in person or video conference by members of the Education & Training team.
