

FSRH Diploma

Our Diploma (DFSRH) provides you with the knowledge and skills to carry out an effective contraception consultation, as part of a comprehensive approach to SRH care. It is accessible to you if you are new to contraception or if you have some experience.

Our flagship qualification offers you:

- ▶ **Knowledge and skills to provide a high-quality, effective contraception consultation for all maternity patients**
Fully support patients with their contraceptive choices as part of a comprehensive approach to SRH care.
- ▶ **A nationally recognised qualification.**
Take our qualification with you, wherever you work.
- ▶ **An enhanced curriculum, relevant to your maternity setting**
Our redesigned curriculum has clear learning outcomes and assessments, relevant to you and your role.
- ▶ **NICE accredited, clinically reviewed content**
Based on our NICE-accredited Clinical Effectiveness Unit guidance, topics include contraceptive options in-depth, alongside early pregnancy, STIs, cervical screening and safeguarding.
- ▶ **A range of resources to support your learning**
Access interactive content in our FSRH Training Hub, including webinars, bite-sized videos, useful guidance and articles.
- ▶ **Trainer support**
Tailored advice and support from your Faculty Registered Trainer (FRT), throughout your learning journey.

Who is this for?

Our DFSRH is open to midwives, nurses, doctors, physician associates, paramedics, pharmacists and other relevant healthcare professionals working in primary care, community and integrated services.
