

FSRH Hot Topic: Menopause care for all | Half-day, online event

FSRH Hot Topic Events are a series of half-day courses providing expert specialist clinical training and essential information.

Join us for an empowering half-day event dedicated to Menopause Care for All. The event aims to address the physiological, emotional, and psychological changes that occur during menopause. You will also explore and learn about the unique experiences of underrepresented groups during this life transition. With expert speakers and engaging discussions, you'll gain a comprehensive understanding of menopause and its impact, which will lead to a better understanding of women's concerns and experiences, and ultimately improve practice and patient outcomes.

Date: 17 October 2023

Time: 09:30 – 12:30

Venue: Delivered via Zoom

Registration: Doctors / GPs, nurses, midwives, pharmacists, physician associates – and other healthcare pros with an interest in SRH

Learning outcomes:

- Evaluate a range of treatment options including alternatives to Hormone Replacement Therapy (HRT).
- Discuss complexities of tailoring treatment plans that address both menopause-related symptoms and the challenges posed by concurrent health issues.
- Explore Menopause Care for patients experiencing premature or delayed menopause and gain insights into tailored treatment approaches.
- Consider diversity and inclusion when providing menopause care (to include sexuality, gender diversity, neurodiversity, ethnic background, ability).

Time	Topic	Speakers
