

## Entry Requirements - Part 2 of 3

---

Trainee's Name:

You should plan to undertake the practical training and assessments when it is educationally appropriate, and for clinicians in training your educational supervisor can confirm that you are ready to do this.

An experienced practitioner (eg a qualified GP, hospital consultant) may self-certify.

The subject matter in this diploma is sensitive and its delivery relies on the participant being competent in consultation skills. Please provide confirmation that you have the following:

### Gynaecological skills:

#### Doctors:

You should be able to demonstrate that you can perform a genital examination, to include speculum examination, digital vaginal examination and bimanual pelvic examination.

You must be competent in the following gynaecological skills:

- Assessment of size, position and mobility of the uterus
- Assessment, investigation and management of potential IUD/IUS users with:
  - Abnormal findings at pelvic examination
  - Heavy and/or painful periods
  - Infrequent and/or absent periods
  - Vaginal discharge and sexually transmitted infection
  - Acute and chronic pelvic pain

#### Nurses:

You should be able to demonstrate that you can perform a speculum examination

### Self certification details (to be filled in by doctors only):

In view of my experience I certify that I can fulfil the above requirements: I am a

 Qualified GP Consultant doctor

### Self certification details:

- I have a current FSRH LoC IUT or have been assessed as competent against the RCN Genital Examination in Women criteria

**Assessor details:**

This clinician is able to demonstrate the gynaecological skills listed above or this nurse is able to perform a speculum.

Name:

Position:  Consultant doctor
