

## Entry Requirements - Part 1 of 3

---

Trainee's Name:

You should plan to undertake the practical training and assessments when it is educationally appropriate, and for clinicians in training your educational supervisor can confirm that you are ready to do this.

You must hold both a registration and a licence to practise with the UK GMC or nurses on the UK NMC register (excluding RN Level 2).

The subject matter in this diploma is sensitive. Appropriate consultation skills for sexual health consultations are an entry requirement for the DFSRH and NDFSRH pathways.

Please provide confirmation that you are able to:

- Take an appropriate sexual history
- Adapt your consultation style to suit the patient
- Address patients' ideas, concerns and expectations and answer their questions
- Assess whether a patient is competent to consent to treatment and ensure consent is well-informed
- Protect confidentiality
- Make an appropriate offer of a chaperone
- Demonstrate clear record-keeping
- Use time effectively in consultations

### Self certification details:

In view of my experience I certify that I have fulfilled the above requirements. I am a

- Qualified GP
- Consultant doctor
- Nurse practitioner degree holder
- Nurse with a non-medical prescriber qualification

### Assessor details:

This clinician is able to demonstrate the consultation skills listed above:

Name:

- Position:
- Educational supervisor
- Consultant doctor

<input type="radio"/> Faculty Registered Trainer
<input type="radio"/> GP Trainer
<input type="radio"/> Staff grade/associate specialist in gynaecology
